

SMART CITIES WEBINAR SERIES: ENVIRONMENT

JULY 1, 2020

WITH PRESENTATIONS FROM

Microsoft

FRED SITBON

Account Technology Strategist

Fred Sitbon has worked at Microsoft for 21 years and is an expert in implementing smart cities solutions in European countries. Additionally, Fred gained relevant public sector experience through five years as Deputy Mayor in Asnières-sur-Seine, near Paris, France. Fred has been an Industry Lead for two years and has worked across Eastern Europe implementing smart cities solutions.

GDi, an ESRI Partner

TOMISLAV SVILICIC

Business Development Manager

With experience optimizing work processes, asset management, and nature preservation through GIS for national parks, reserves, and institutes in Croatia and internationally, Tomislav is an expert in business development in the natural resource sector. He has helped organizations achieve growth and efficiency through digitalization and evolution of business processes, while sustaining the environment.

Temboo

VAUGHN SHINALL

Head of Product Outreach

As Head of Product Outreach for Temboo, Vaughn Shinall helps businesses and governments assess their environmental impact, nonprofits promote policy changes, and citizens become more involved. Previously he worked as an agent for the Wylie Agency, representing writers, managing intellectual property, and establishing a digital publishing business. He has an MBA in Innovation and Technology from NYU Stern and an AB in the Classics from Harvard College.

WITH PRESENTATIONS FROM

Rapids Venture

JIM MEEKS

Co-founder and Managing Partner

James has extensive leadership experience internationally and within military, non-profit, and private sectors. Prior to joining Rapids Venture, he was the CEO of MOVE Systems, an advisor to Aspiration Partners, where he guided several start-up and growth companies, and Senior Vice President for Operations at Swissport Americas, a 10,000-person global aviation logistics company. James is a combat veteran, having served two tours in Iraq as an armor officer with the US Army, receiving a Purple Heart and Bronze Star. He is also the Co-founder and Chairman of an international non-profit, the 2Seeds Network, which deploys college graduates to lead economic development projects with subsistence farmers in East Africa. James graduated magna cum laude from Harvard University and received an MBA in global management from the Stanford Graduate School of Business.

Endeavor

DARREN RILEY

Portfolio Manager

Darren Riley is a value-driven innovator with strong technical proficiencies keen on developing early-stage products from build to launch. Upon graduating from Carnegie Mellon University, Darren started his career in New York, as a Cyber Security Consultant at Deloitte. After Deloitte, Darren joined Green Collar Foods, a Detroit-based AgTech startup, as the Director of Operations. There he developed and implemented a technical strategy involving IoT to help augment growing efficiencies for owners and operators of indoor growing facilities. As a portfolio manager at Endeavor, Darren works with a global portfolio of high-growth companies and supports them through various scaling challenges. Currently, Darren is keen on working to solve the disparities of air quality to help address the inequalities of health in communities around the world.
